We're talkin' about it

**When you've replaced
as many windows as
we have, you'll see why
Alside is the best choice
for new construction.**

We've learned a lot replacing millions of old wood, aluminum and steel windows with our technologically advanced vinyl designs.

And now we're bringing that experience to our **ALSIDE PERFORMANCE SERIES NEW CONSTRUCTION VINYL WINDOWS.**

They combine the features homeowners want most...high performance glass...thermal efficiency...maintenance freedom...sleek look. And all in an easy-to-install new construction design.

Every Alside product comes with an added feature: assurance. It's the feeling of confidence you get knowing your windows were made to last by a company that's been around for more than 50 years.

570 KLIF Home Show
Saturdays 1-2pm

Welcome to the 570 KLIF Design and Idea Home by Cook & Harrison Homes! We're delighted that you have chosen to visit our home - and we're delighted by all the wonderful things we have to show you!

The 570 KLIF Design & Idea Home has been recognized as HOME Magazine's 1999 American House of the Year. We hope your tour of our Design & Idea Home will start you on the path toward your own dream home.

We have attempted to cherish the old while embracing the new. You'll find the latest innovations in interior design and home technology alongside craftsmanship from a bygone era.

Gabberts Furniture and Design Studio provided the latest decorating expertise and elegant furnishings, and many building partners provided the hard work and manpower. The result is a home that, we hope, will delight you, surprise you, and inspire you. And remember, what you see here is only a part of what each partner involved has to offer.

Listen to 570 KLIF throughout the year for information about our home.

Enjoy!

David Yates

HOME

6923 Forest Glen Drive
Dallas, Texas 75230

All homes have one thing in common—the people who live there. A home focus should always be on creation of a functional environment that becomes the haven/sanctuary of its inhabitants.

With that in mind, the Design & Idea Home has a family. A mom, dad, brother and sister, who are very much a part of the year 2000. They are fully aware and connected to all the digital communications of their future, and they are concerned about the future of the world. Yet, they cherish the past. They feel nourished, surrounding themselves in classical history, holding on to the part of the world that was, seeing it as a part of their personal history.

In this home, look for that balanced integration. While cherishing the old, embracing the new is apparent throughout. This family has a balanced focus towards life. There is great use of quiet space, interactive space, and multi-functional space.

I hope you enjoy your visit and are inspired to create great things in your home. My professional associates and I at Gabberts would be honored to help you.

THE NORM HITZGES SHOW
Norm Hitzges with Leon Simon
5:30-9:00am on 570 KLIF

NORM HITZGES

**LEON
SIMON**

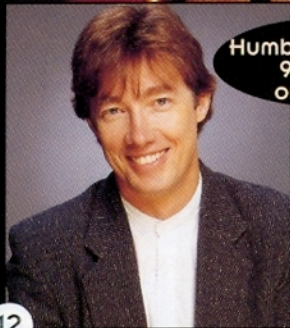

Norm Hitzges. Leon Simon. Passion, chemistry and humor wake you up each weekday, 5:30-9:00am on 570 KLIF. You'll know exactly what's goin' on every day in sports, news, traffic and the weather before you even get out of bed!

Sequestered behind the conversation room and stair hall is the master bedroom, a room that reflects the acquired things we love. The suite provides a lot of privacy, yet is still close to the heart of the home.

A mix of both old and new, yet all combined in a soft, relaxing atmosphere of neutrals and cosmetic coral tones. The sitting area features a settee in a floral print that inspired the peach-toned tan color of the wall paint, and the tawny hue of the carpet. Check your skin to see if it's glowing.

The day's stresses melt away upon entering the master bath with its limestone floor tiles and tub surrounded by hand-painted fresco, and built-in WoodMode cabinetry. A mosaic tile floor design from Spain rounds out the design.

Humble Billy Hayes
9am -Noon
on 570 KLIF

This father of five shares his look at the world through his life experiences each weekday from 9am-Noon on 570 KLIF. Whether you feel a pull on your heartstrings, a tug on your pocketbook or a blast from the past, you'll feel right at home with Humble Billy Hayes.

Providing a comfortable gathering spot for the whole family for "indoor recreation," the media room is perfect for family games and television watching. Mom and dad can enjoy a moment of quiet relaxation on the sectional.

At the center of the home theater designed by Hillcrest High Fidelity is a 64" Pioneer Elite HD-TV digital television. The television's performance is truly life-like, and the HD-TV picture must be seen to be believed.

A Pioneer Elite/Lucas films THX surround-sound home theater system completes the media package, with THX-licensed Klipsch speakers.

Skylights with electric blinds from Velux allow the user to brighten the room, or shield the sun's rays for better media performance.

Custom Designed Systems

Hillcrest High Fidelity has been designing and installing home entertainment systems in the Metroplex for over 50 years.

We Offer: Home Theater
Multi-room Audio/Video Systems
Lighting Controls
Phone Systems
Home Automation

Our goal is to aesthetically combine technology with decor without compromise to sound quality or visual appeal and to make it easy to operate.

Two showrooms for your convenience or call for a free in home consultation.

BREAK THE FUN BARRIER WITH HILLCREST HIGH FIDELITY

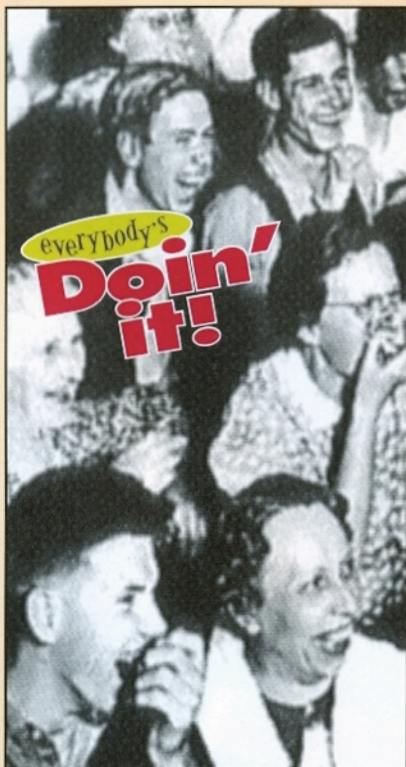

One of the biggest challenges of designing a home entertainment system is to aesthetically combine technology with decor and a perfect blend of style and function without compromise to sound quality or visual appeal.

Hillcrest High Fidelity has been designing, installing, and servicing audio/video systems in the Dallas Fort Worth area for over 50 years. New technology allows you to enjoy movie-theater impact with a custom-designed home theater and live concert realism in any room at a lower cost than ever before. Hillcrest makes it easy for you to break the "fun barrier."

Consider the possibilities like, High Definition TV, THX Surround Sound, Whole House Sound, from one system, a large screen video that drops down from the ceiling, invisible or flush in-wall (or ceiling) speakers, watch the same video tape from any TV in the home, remote control from any room, doorbell distribution, paging, residential alarm systems, security cameras that can be seen from any TV in the home. All this and more are possible.

Hillcrest will undertake any or all parts of your project from modest system installation, to remodeling, to new home construction.

Hillcrest High Fidelity is a charter member of both the Professional Audio/Video Retailers Association and an Industry Foundation member of American Society of Interior Designers. The company has two showrooms: the custom design showroom at 4488 Spring Valley and the retail showroom at 13400 Preston Road, across from Valley View Mall. For more information or a free in-home consultation, call Tom Kissell at 972.392.7636.

Every new home should be this fun to live in.

No new home is complete without the latest entertainment technology. And that means TCI Digital Cable! You get all the latest channels, plus lots of digital music channels, more channels of pay-per-view at just \$2.99 per movie, and the TCI Interactive Navigator. No wonder Everybody's Doin' It!

Call today and ask about our special package prices: **1-888-HOT-4TCI**

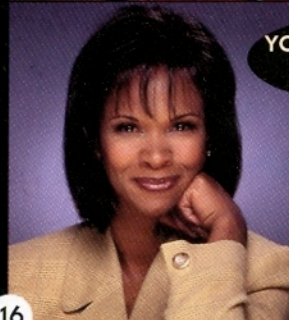

Not available in all areas. Call TCI for details.

YOLANDA GASKINS
Noon-3:00pm
on 570 KLIF

Yolanda gives the Joy of Cooking a whole new meaning. From the broadcast studios of 570 KLIF, Yolanda cooks up a power lunch from Noon to 3pm weekdays. Sizzling conversations stir it up.

The kitchen became the heart of the home many generations ago, and it continues its path through this very functional kitchen. State-of-the-art appliances blend beautifully with the deep, rich custom-crafted cabinetry. A mission-style look is incorporated in this new design of cabinetry from Woodmode, inspired by the craftsmen of Stickley.

Stainless steel appliances from KitchenAid showcase the latest technology available in kitchen appliances, while the builder-designed pot rack is reminiscent of old-world artistry.

The desk area features 100-base T ethernet access to the home's computer network, and 4 phone lines utilizing the Category 5 telephone wire.

KEVIN MCCARTHY
3:00-6:00pm
on 570 KLIF

Wind down during your drive home each day from 3-6pm with Kevin McCarthy on 570 KLIF. If there's a way to laugh at what's going on around you, Kevin will find it. You'll be ready to enjoy your evening quiet time in the comfort of your home.

570 KLIF

A room of quiet elegance designed for intimate conversation, music appreciation or quiet thoughts. Set in deep taupe and plum tones the room is soft and relaxed. There is a central point of focus meant to include all. The room purposely contains all conversation chairs, no one outweighs the other.

Oil painting by Dallas artist Mary Beth Hickman.

The builder saw the door casing in an old hotel, loved the look and had the casings custom milled to recreate the profile.

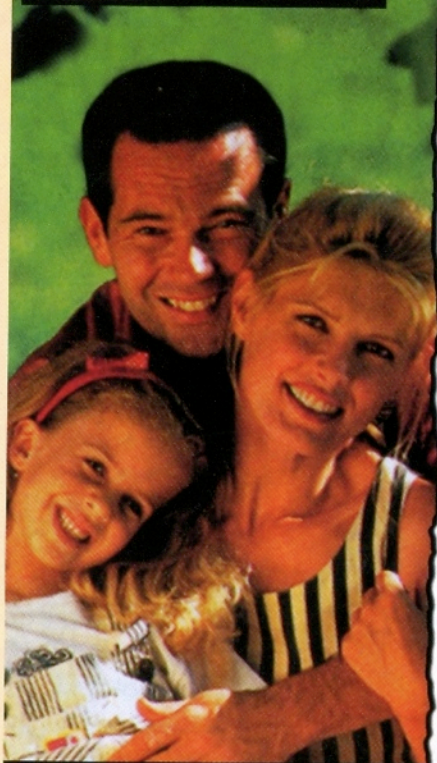

The Pella wood windows, plaster crown molding, cast stone mantel and copper tile complete the architectural elements of the room.

Leading the way for fine kitchen design and remodeling solutions in Dallas/Fort Worth.

Since 1963, the Johns family has represented Wood Mode cabinets exclusively, and since 1991, Bob Johns has made the fine cabinet maker the focal point of two regional showrooms, one in Dallas and the other in Arlington. The Kitchen Source showrooms offer custom kitchen design, remodeling and new home installation services in all price ranges - to please everyone from starter homeowners to luxury new home buyers.

"We only have one level of service - top quality," says Bob Johns, president of The Kitchen Source.

The Kitchen Source is a unique environment for consumers - designer showrooms complete with fully finished "working kitchen" vignettes featuring the most fashionable cabinet styles in the latest colors and finishes. The vignettes are designed and installed on a rotating basis at different times of the year to showcase the latest design ideas from contemporary urban kitchens to European country classic kitchens.

Without question, the star of each vignette is the Wood Mode cabinetry. Wood Mode cabinets are known for

their smooth, baked-on finishes that are as durable as they are beautiful. Custom made to order, Wood Mode cabinets are the product of many steps including fine hand-sanding of topcoat; rubbing with steel wool; hand application of paste wax; and hand buffing to create the richest patina you would expect of hand-crafted furniture.

The finest woods such as cherry, maple, oak and pine are Old World quality coupled with 21st century user-friendly features including invisible sliding drawers, adjustable shelves and extra wide cabinet openings. Dramatic design accents such as mouldings and hardware complement the cabinetry. Customized work solutions such as tray dividers, pull-out cutting boards, appliance garages, bread boxes, and roll-out carts are available as well as convenience options such as recycling centers, knife blocks and pantries.

"We feel these are the finest cabinets we can offer the customer and that is why we sell only Wood Mode," says Johns.

WALLY & THE FISH
6:00-9:00pm
on 570 KLIF

WALLY LYNN

MIKE FISHER

Spending your early evenings, 6-9pm with Wally Lynn and Mike Fisher can set you on fire... The hottest sports buzz, superstar sports guests and no-holds-barred interview style means anything goes with these two.

The heart of the home, the great room includes interaction with all. Whether preparing or eating, one can still be involved in great conversation or enjoy the view of the fire or the latest movie. Traditional history prevails in the furnishings, this time incorporating a little more Americana in Stickley's Mission-style wood furnishings.

The beams accent the 19' ceiling and were designed by Cook & Harrison Homes with a decorative finish by David Lyles. The flooring is random-width red oak, hand-distressed by the builder. The room offers views of the Koi lagoon, breakfast area, entry hall, kitchen, bar, and wine cellar.

The dining room is a cooperative space with the design focus centered on multi-functional use. There is no reason that such a large, elegant room, like a formal dining room, is subject to non-use most of the time. China cabinets can become eclectic libraries. This formal dining table could just as easily be a daily conference room for a home office or entrepreneur. Neo-classical elegance remains a dominant furnishings inspiration.

Oil painting by
Dallas artist
Mary Beth Hickman.

Wood French doors provide light and a glimpse into the private garden at the front of the home. Note the Red Oak hardwood floors, plaster crown molding, and faux finish wallpaper. The alabaster light fixture enhances the handsome room.

WINDOWS LIKE THESE
DON'T GROW ON TREES!

Alside
WINDOW SYSTEMS

Alside's vinyl windows are setting the pace in Lake Forest, and Alside is proud to have been chosen for their durability in the 570 KLIF Design and Idea home.

In 1947, Alside introduced the first low-maintenance residential siding. Ever since then, we've been helping homeowners beautify their homes with products that enhance both a home's interior and exterior, and require only a minimum of care and maintenance. Over the years we've earned a reputation as a manufacturer of affordable, dependable, innovative vinyl products for just about every application - from windows, to siding, soffit, trim and accessories.

Visit the Learning Center on the first floor of the 570 KLIF Design & Idea Home to see Alside's vinyl windows and patented Charter Oak vinyl siding on this home.

Builders love Alside windows for their ease of installation, and homeowners love Alside windows because of the easy maintenance and energy savings. Discover the efficiency of a vinyl Low-E, argon-filled window versus either a conventional wood or aluminum window.

Ask about Alside's new Texas Exterior 2000 program. For more details, contact Greg Topjon at (800) 442-6554.

A GREAT CUP
OF COFFEE

Executive Coffee Service has been perfecting the concept of service for 38 years and exclusively involved with office coffee since 1963. We can provide you with peace of mind when it comes to your coffee service.

Executive Coffee offers reliability. You never have to worry about running out of supplies, clean modern equipment and the best 100% arabica coffee at the lowest possible price. With every office visit, coffee brewers and decanters are cleaned, filter baskets are exchanged with clean ones and inventory is checked and supplies restocked.

Executive Coffee also has a complete line of water filtration systems that will reduce chlorine, foul tastes, smells and even the lead content of your water. We use "state of the art", carbon block filters, which provide filtration performance 20 times greater than most other systems. This filtration system can be connected to ice machines, drinking water and coffee machines. You will be amazed at the improvement in the flavor of coffee or iced drinks without chlorine.

Call Executive Coffee at 214.747.2177 to get your workday started with a great cup of coffee.
